

Data

Based on definition of our problem, I need the following data:

- List of neighbourhoods of the capital city of Malaysia, Kuala Lumpur.
- Latitude and Longitude coordinates of those neighbourhoods.
- Number of existing gym and fitness centres in the neighbourhoods of Kuala Lumpur.

Following data sources will be needed to extract the required information:

- List of neighbourhoods in Kuala Lumpur will be obtained on ["https://en.wikipedia.org/wiki/Category:Suburbs_in_Kuala_Lumpur"](https://en.wikipedia.org/wiki/Category:Suburbs_in_Kuala_Lumpur).
- Number of gym and fitness centres and locations in every neighbourhoods will be obtained using **Foursquare API**.
